Continuation of Substance of Interview including description of the general nature of what was discussed: Amended claim 16 must contain lead free limitation of previous claim 15 and all terms must have antecedent basis for allowance. Accordingly, "said glass flux" in line 10 must be changed to "a lead-free glass flux" and "said inorganic pigment" in line 9 must be changed to "an inorganic pigment". Additionally, in a conversation with Michael Striker on April 12, 2006 examiner indicated that a replacement drawing must be submitted with an addition of "Fig. 1" to designate the figure and associated addition of a reference to Fig. 1 in the specification, revised (non-hand-drawn) numbers and a clear designation of the structure to which all numbers refer - particularly glass ceramic panel 7. Applicant's representative agreed to the required changes to put the application in condition for allowance.
